Summer preparation

Before you start your course, we recommend you attend as many performances over the summer as you can, this could be a music event or stage production. We have some fantastic venues within Cumbria and Lancashire, such as Brewery Arts, Theatre by The Lake, The Sands Centre, The Forum, The Dukes & The Grand which you can visit.

What you'll need for your course

To get the best out of your course, it helps to ensure you have the resources you will require. We strongly recommend that you purchase the following:

- Scale ruler (including 1:1, 1:20, 1:25, 1:50)
- Scale lantern stencil (1:25)
- Steel-toe-capped boots (Black)
- Black trousers and t-shirt
- Laptop or other internet enabled device (this is not essential however it is recommended)

Our workshop fee of £50 will be payable by cash, card or cheque on Enrolment Day. This fee enables us to subsidise various trips and guest speakers throughout the year. In the past, we have had the founder of Kendal Calling, Large Scale Audio Company, Touring Lighting Technicians and trips to local theatres.

Our Student Services team offer financial support towards the costs of coming to college. For further guidance, please contact one of the team directly on: **01539 814700** or go to the student money pages on the website.

Enrichment activities

We organise an annual trip to London in January which costs approximately £400. During the journey, you will get to experience two West End shows, one a musical and the other a play. In the past, we have been to watch The Book of Mormon, The Play that Goes Wrong, The Curious Incident of the Dog in the Night-Time, Mrs Doubtfire and Back to the Future. As well as experiencing a high-quality show, you will get a backstage tour in a London Venue.

You will also have some free time to explore London. The trip aims to provide an exciting experience attending large-scale shows and to see the latest technology.

We're looking forward to welcoming you to Theatre & Event Technology!

If you are unsure of anything, this information will be further explained at Enrolment Day and during your induction.
